Subject: NF and SF Pound River

---

Hi Joey,

Attached are our completed comments for the NF and SF Pound River TMDL and your phased TMDL Monitoring Plan. All of the comments are in track changes in the report, including those I sent you in June. We would like to have another conference call to go over the comments/changes together. Please follow up with me on a good date for you.

We will also be submitting our comments on Bull Creek to you soon, which will have similar changes and comments.

If you have the reports for Levisa Fork and Powell River in Word, could you email me a copy? We would like to continue adding our comments in track changes in the word documents of the reports to make it easier when we review the reports on the phone together.

Thank you Joey and thank you for working with us to address these concerns.
